

SUMMARY

Data engineer professional with 10 plus years of experience in driving user growth, enhancing market share, and boosting user retention through deployment of big data ecosystem components and best practices. Skilled in data mining, visualization, and generating error-free reports to deliver compelling business value and successfully execute projects. Adept at performing deep dive to gain actionable insights to benefit key stakeholders & facilitate sound decision-making while generating an error-free report.

KEY SKILLS

- Big Data Engineering • Data Architecture • Performance Tuning • Data warehousing • Statistical Methods • ETL/ELT • CI/CD
- Data Modeling • Data Mining • Machine Learning • Leadership & Training • Process Improvement • Data Visualization

TECHNICAL SKILLS

Tools/Languages: Microsoft Fabric, Azure Databricks, Apache Spark (R, Scala, Spark SQL, PySpark), Python, Pandas, Numpy, SQL, Hadoop, Data Build Tool (DBT), Azure Data Factory (ADF), Azure Synapse, Snowflake

Cloud: Azure, AWS, Linode

Database Management Systems: MS SQL Server, MySQL, NoSQL (MongoDB, Elastic Search), Oracle, PostgreSQL

Visualization Tools: Tableau, Kibana, PowerBI, SSRS

EDUCATION

Masters of Science in Engineering

Oct '21 - Feb '23

Liverpool John Moore University

Liverpool, UK

• Course Modules:

- Data Analysis using SQL | Introduction to Python | Introduction to Machine Learning and Linear Regression
- Time Series Analysis | Telecom Churn Case Study | Lexical Processing | Syntactic Processing
- Business Problem Assignment | Building Automated Data Pipelines with Airflow | Analytics using PySpark

Bachelor of Technology

Sep '10 - Jun '14

Rajeev Gandhi Memorial college of Engineering and Technology

Nandyal, IN

- Secured 80%

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Mar '22 - Jan '26

Akamai Technologies

Bengaluru, IN

Project: Threat-Lens

Data Analysis & Data Mining

- Creating algorithms based on deep-dive statistical analysis and predictive data modeling to personalize customer interactions using **Azure Databricks** and **Microsoft Fabric**.
- Deploying **quantitative analysis** & data mining/visualization to present **data on user interaction** with the product
- Identifying and analyzing the impact of marketing and product changes on customer acquisition, behavior, and retention through advanced analytics on **Azure Data Factory** pipelines
- Detected abnormal patterns in various use cases using time series analysis and **Azure-based analytical tools**.

Data Processing & Transformation

- Organizing massive datasets effectively via advanced querying, visualization, and analytics tools, leveraging **Azure Synapse Analytics** and **Power BI**
- Evaluating and formulating enhancement strategies to boost KPIs across all business units through **Azure-powered data insights**

Strategy Formulation

- Contributing to the formulation of strategies across multiple business units, **distribution channels** and product lines
- Evaluating and formulating enhancement strategies to **boost KPIs** across all business units

Report Generation & Troubleshooting

- Generating **weekly reports** and updating resources with new data using **Azure Data Factory** and **Power BI**

- **Training recruits** in data storage structures, cleansing, and management using **Azure SQL Database** and other Azure services while ensuring data quality and consistency.
- Resolving dashboard and reporting database issues, and overseeing quality assurance of imported data with **Azure Synapse** and **Microsoft Fabric**

Senior Data Engineer

Microsoft

Apr '20 - Mar '22

Bengaluru, IN

Project: Bing Risk Analytics

- Conducted data profiling, cataloging, and mapping using **Azure Data Catalog** to design and construct technical data flows, ensuring high data quality and alignment with business requirements.
- Designed and implemented highly performant data ingestion pipelines from multiple sources using Apache Spark and **Azure Databricks**, enabling efficient and scalable data processing.
- Developed and orchestrated ETL pipelines using **Azure Data Factory**, automating the movement and transformation of large datasets across on-premises and cloud environments.
- Optimized data ingestion and transformation processes by leveraging **Azure Synapse Analytics**, achieving faster query performance and reducing data latency.
- Integrated diverse data sources such as **Azure Blob Storage**, Azure SQL Database, and third-party APIs into a unified pipeline for seamless data consolidation and analytics.
- Implemented monitoring and alerting mechanisms using Azure Monitor and Log Analytics to ensure real-time visibility into pipeline performance and proactively address issues.
- Utilized Azure **Key Vault** to securely manage connection strings and credentials, enhancing the security of data flows and pipelines.
- Collaborated with cross-functional teams to define scalable solutions and best practices for leveraging **Azure Databricks** in distributed data processing and advanced analytics tasks.

Senior Analyst

Ugam Solutions

Feb '20 - Apr '20

Bengaluru, IN

- Created detailed workflow diagrams and visual analytics charts to communicate end-to-end data processes.
- Supported data engineering initiatives focused on pipeline efficiency, quality assurance, and structured documentation.

Data Engineer Analyst

Optum

Oct '15 - Feb '20

Bengaluru, IN

Project: Housecalls

- Enhanced database performance, achieving a **50% reduction in query time** by leveraging stored procedures & Triggers within Azure SQL Database for data migration projects & comprehensive reporting system development
- Elevated data quality & accessibility by executing data pipeline development with **SSIS & Azure Data Factory**, leveraging SQL & data modeling techniques
- Streamlined complex ETL package scheduling using SSIS to enhance **data transfer efficiency** by **50%** from multiple sources to Azure SQL Database
- Analyzed large amounts of information to discover trends and patterns using Tableau and Power BI integrated with **Azure Synapse Analytics**

Achievements

- Employee of the Year Award | 2017, 2019

ADDITIONAL INFORMATION

- **Communication:** English, Hindi, Telugu (Native)
